EDUCATION

University of Maryland - College Park College Park, MD
B.S in Computer Science Dec 2020

EXPERIENCE

Frontend Engineer | Amazon AWS | Seattle, WA Sep 2022 - Present

- Led end-to-end development of the **Bedrock AgentCore Identity Console** using React, TypeScript, and Cloudscape; delivered a fully tested, production-ready experience in collaboration with backend, design, and platform teams.
- Architected and launched the **Managed Login Customization Studio** — a no-code branding editor built with Storybook, and modular, reusable components such as a color picker, preview control, and asset manager; now adopted across multiple product areas for scalable UI customization.
- Led development of customer-facing features in the **Cognito Console** — including **Terms & Conditions**, **Access Token Customization**, and **Advanced Security Settings** — with full **test automation using Jest and Playwright**, achieving **90%+ coverage** and ensuring regression-free, compliant releases used by thousands of customers.
- **Optimized CDK pipeline automation**, reducing infrastructure deployment time by 32% across 30 AWS regions and enhancing CI/CD workflows by over **600 minutes** saved per rollout.
- Remediated **249+ accessibility violations** to achieve full **WCAG compliance**, greatly improving user experience for assistive tech users.
- Migrated **7,000+ unit** tests from Jest to Vitest, improving CI reliability and execution time by over 100 seconds.

Frontend Developer | Curated | San Francisco, CA Apr 2022 - Sep 2022

- Built an E-commerce website using React.js, GraphQL

Frontend Developer | Bullpen Strategy Group | Virginia, VA Oct 2021 - Apr 2022

- Built a political intelligence analysis tool in Next.js, Material UI.
- Improve the page rendering time from 2 sec to 0.5 sec by refactoring implementation logic.

Web Developer | Maryland Transportation Institute | College Park, MD Mar 2021 - July 2021

- Developed a prototype used to visualize transportation information using React.js, Mapbox, Context API.
- Refactored React components with the help of hooks make the code cleaner and reduce the amount of code by 15%.

Full Stack Software Engineer | Fraunhofer USA CESE | Riverdale Park, MD Sep 2020 - Mar 2021

- Engineered user-friendly Vue.js app with Vuex and OpenCV, boosting manufacturing efficiency by 30% through improved product inspection.
